1 Beating On A Better Drum
4:13
P. Berger/F. Berger/Styrke
Universal Music Publishing Sweden/
Publishing Company Ten/
Copyright Control
Produced by Patrik Berger
Mixed by Anders Hvenare at
Electrophonic Analogue

Remember when I had to choose if I
should keep you in my head or heart,
now we're apart
I spend my days erasing you and
everything you brought into my life
Alright?
My head is trying to keep up and
I don't know it's like it's hard to do,
when she's with you
I take a step away and throw myself
onto another empty page
Okey
I wanna keep you in my pocket for
another day to take you out
If that's alright
We're gonna take a little trip into the
woods and kill some precious time
Okey
I dig a hole, I throw you in and
put a stone on top to make it nice
Good night
You'll have a good time in the dark and
I'll be moving on into the light
Alright
Beating on a better drum
Dancing right above you
Raving 'til my body pop
Shakin' up another one
Moving on without you
Come on make my body pop
Trying to keep it together
Through the heartache
'til the wall breaks
Beating on another drum
Better off without you
I wanna keep you to myself,
a hidden place where no one else
could come, deep under ground
If I can't have you no one else should
ever touch you like I used to do
And every week I will be stopping by
to tell you all about my life
My perfect life
And you'll be listening wishing you could
keep me in your pocket, head and heart
Too late
Beating on a better drum
Dancing right above you
Raving 'til my body pop
Shakin' up another one
Moving on without you
Come on make my body pop
Trying to keep it together
Through the heartache
'til the wall breaks
Beating on another drum
Better off without you

2 Stalker In Your Speaker
3:07
P. Berger/F. Berger
Universal Music Publishing Sweden/
Publishing Company Ten
Produced by Patrik Berger
Mixed by Anders Hvenare at
Electrophonic Analogue

Made a thousand copies of myself
I send them out to you
For everyone to listen to
A girl like me for once
I'm moving in to your life, every life
I made a thousand copies of myself
A stalker in your speaker
Sending out true love
A stalker in your speaker
Reaching out for your love
Hear me out
I can't live without you watching me
I'll help you out, you can't live
without your own copy of me
You can have a duplicate of me
It's not for free but
You're one of my closest friends you're
One of thousands yes you are
My mother says I can't be loved by
everyone, yes I can
A stalker in your speaker
Sending out true love
A stalker in your speaker
Reaching out for your love
Hear me out, I can't live without you
watching me
I'll help you out, you can't live
without your own copy of me
I'm in the left speaker
I'm in the right speaker
I'm the up front stalker
I am in the far speaker
I'm all around, almost like god
So praise me, hold me up high
Push up the gain, turn off the light
and kiss me, kiss the membrane
A stalker in your speaker
Sending out true love
A stalker in your speaker
Reaching out for your love
Hear me out, I can't live
without you watching me
I'll help you out, you can't live
without your own copy of me

3 High And Low
3:44
P. Berger/F. Berger/Styrke
Universal Music Publishing/Publishing
Company Ten/Copyright Control
Produced by Patrik Berger
Mixed by Anders Hvenare at
Electrophonic Analogue

Don't know every high and every low
But I'm just getting started
This can't be the meaning of it all
Everything's just repeated
Maybe there is nothing to believe
What do we need to sort out
What if there is nothing here for me
You let me in just to get out
I feel your arms around me
But not the heat
Your eyes are pointed at me
But do you see
The bubble don't burst
My heart is not taking off
Love doesn't hurt
Baby, give all you got
Speak love how mechanical of you
Where's the truth when I need it
Get rid of the glitter and the gold
Put love where I feel it
Make real, fill the hollow with a heart
Give us some kind of meaning

Crack up, show me who really you are
Just a glimpse to believe in
I feel your arms around me
But not the heat
Your eyes are pointed at me
But do you see
The bubble don't burst
My heart is not taking off
Love doesn't hurt
Baby, give all you got
You don't need love
I need love
You don't need love
I feel your arms around me
(I feel no love around me)
But not the heat
Your eyes are pointed at me
(I see no love around me)
But do you see
I feel your arms around me
(I feel no love around me)
But not the heat
Your eyes are pointed at me
(I see no love)
But do you see
The bubble don't burst
My heart is not taking off
Love doesn't hurt
Baby, give all you got

4 Million Pieces
3:41
A. Olenius/LLZ
EMI Music Publishing
Produced by Lotus & 2manyfreckles
Mixed by Anders Hvenare at Electrophonic Analogue

Last night I said I was fine but I lied,
my heart in thousand pieces
Million pieces tonight
I said I was fine but I lied, my heart in thousand pieces so say everything is alright
Just say everything is alright
Just say everything is alright
My friends tell me to start not to worry,
they tell me to wait and see what happens
See what happens with you
My friends tell me to start not to worry
They tell me to wait so say everything
is alright
Just say everything is alright
Just say everything is alright
So let's straighten this baby don't break me my baby
You know you owe me better how come you don't remember
I'm living by the hour I'm living by the minute so stay with me baby
Don't break me my baby
Last night I said I was fine but I lied,
my heart in thousand pieces
Million pieces tonight
I said I was fine but I lied, my heart in thousand pieces so say everything is alright
Say everything is alright
So let's straighten this baby
Don't break me my baby
You know you owe me better how come you don't remember
I'm living by the hour, I'm living by the minute so stay with me baby
Don't break me my baby
Let's straighten this baby
Don't break me my baby
You know you owe me better how come you don't remember
I'm living by the hour, I'm living by the minute so stay with me baby
Don't break me my baby
I'm sure it'll never happen again
I'm getting what I want in the end
Yes I'm sure it'll never happen again
What I want in the end,
what I want in the end, in the end
Stay with me baby
Don't break me my baby
So stay with me baby, so stay
Straighten this baby
Don't break me my baby
Stay with me baby, so stay

5 Chaos
4:36
Styrke/Bao
Copyright Control/EMI Music Publishing
Produced by Lotus & 2manyfreckles
Mixed by Peter Manson at MIR Studios

Chaos
You've been my friend for quite a while
Anger
You've been around for quite some time
I can't escape from it
Love babe, it eats me up alive
We're loveable, but still we're terrified
I can't escape from it
My heart is infected
I gotta protect it
Don't you dare try to break it
I'm gone
My body is fragile
So please let me rest now
Don't you dare try to stop me
I'm gone
Living
For a dream so far away
Trying
To cover up for what we are
We can't escape from it
We have to fight for it
My heart is infected
I gotta protect it
Don't you dare try to break it
I'm gone
My body is fragile
So please let me rest now
Don't you dare try to stop me
I'm gone
It's a shame that we start lying
It's a shame that we're denying
My heart is infected
I gotta protect it
Don't you dare try to break it
I'm gone
My body is fragile
So please let me rest now
Don't you dare try to stop me
I'm gone
My heart is infected
I gotta protect it
Don't you dare try to break it
I'm gone
My body is fragile
So please let me rest now
Don't you dare try to stop me
I'm gone

6 Bad Time For A Good Time
3:10
F. Berger/P. Berger
Universal Music Publishing Sweden/ Publishing Company Ten
Produced by Patrik Berger
Mixed by Moritz Enders

Been looking all over for someone like you
Now that I found him I go find you
Never been here before
I don't know what to do
Searching is over and now
there's two of you
No tomorrow, no today,
and not another time
No need you to hang around
It's a bad time for a good time
That's why this love won't happen
It's a bad time no not a good time
All boys when I don't need 'em
It's a bad time for a good time
That's why this love won't happen
It's a bad time no not a good time
All boys when I don't need 'em
Look at all the good looking people around
They try to compete with what
I already found
What to do my friend, you could have been the one but I will not pretend
Been looking all over for someone like you
No tomorrow, no today and
not another time
No need to hang around
It's a bad time for a good time
That's why this love won't happen
It's a bad time no not a good time
All boys when I don't need 'em
It's a bad time for a good time
That's why this love won't happen
It's a bad time no not a good time
All boys when I don't need 'em
No tomorrow, no today and
not another time
No need to hang around
No tomorrow, no today and
not another time
No tomorrow, not today and
not another time
No need to stick around
Not tomorrow, not today and
not another time
It's a bad time for a good time
That's why this love won't happen
It's a bad time no not a good time
All boys when I don't need 'em
It's a bad time for a good time
That's why this love won't happen
It's a bad time no not a good time
All boys when I don't need 'em

7 Close Enough
3:49
Ågren/Kask/Styrke
Copyright Control/EMI Music Publishing/ Copyright Control
Produced by Peter Ågren and Jan Kask
Mixed by Anders Hvenare at Electrophonic Analogue

You said you'd never live a life of pretending
But the lights in my room are so loud
Bad dreams in the summer
And I was never enough
Never enough on my own
I hear your name
Out in the streets and alleyways
I see your face in every little bit of rain
Always out of reach
Close enough for me
And the more you try to be yourself
The more you turn into someone else
You carry the world on your shoulders
If I could do it again
I'd do it again on my own
I hear your name
Out in the streets and alleyways
I see your face in every little bit of rain
Always out of reach
Close enough for...
No sleep in the city
Slow trains passing by
No lights in your building
No sleep tonight
I hear your name
Out in the streets and alleyways
I see your face in every little bit of rain
Always out of reach
Close enough for me

8 Love You And Leave You
3:10
Paw
Copyright Control
Produced by Paw
Mixed by Anders Hvenare at Electrophonic Analogue

Hey
Maybe I forgot your name
I have no shame
I have no limit
Say
Want to play a little game
I'll have you framed
I'll leave you crying
Hey
We will never be the same
We're lost in the rain
And no umbrella
How was I supposed to know
Life is short
It's time to go
Time to fly
Stained
Maybe I'm the one to blame
I have no shame
I have no limit
How was I supposed to know
Life is short
It's time to go
How was I supposed to know
All dressed up
It's time to go
Time to fly

9 Four Elements
3:50
Styrke/Bao
Copyright Control/EMI Music Publishing
Produced by Lotus & 2manyfreckles
Mixed by Peter Manson at MIR Studios

Just like water I'll run like the river flows
You search won't find me
I'm hiding in the waves
I'm like fire but my ashes are colorful
You search I'm dancing
Flames won't lock me in
I could hold you like this
Let you hear and make you see
When summer mornings kiss the breeze
We will be who we want to be
I'll just be me
Earth is moving
I'm watching the stars collide

Moonlight shadows, cities with no names
I'm not waiting
I'm not wasting lies tonight
Wind keeps me sailing
Flames won't lock me in
I could hold you like this
Let you hear and make you see
When summer mornings kiss the breeze
We will be who we want to be
I'll just be me
When the wind is blowing you will see
I can make you feel it naturally
The air tonight will make you breathe
The air tonight will make you breathe
When the wind is blowing you will see
I can make you feel it naturally
The air tonight will make you breathe
The air tonight will make you breathe

10 Walking My Daydream
3:52
Ågren/Kask/Styrke
Copyright Control/EMI Music Publishing/
Copyright Control
Produced by Peter Ågren and Jan Kask
Mixed by Anders Hvenare at
Electrophonic Analogue

Ventura drive, 11:45
I thought about the way that your hands
move
It's business suits and train wrecks on the
news and no one ever talks like we used to
But nothing's gonna make the world
stop turning
Nothing's gonna make the world stop
No lights in the city
It's too hot for sleeping
I'm walking my daydream back home
It's too hard to say it
It's too late to feel it
I'm walking my daydream back home
Vanilla street, you always missed a beat
You're never gonna find it in your heart
You turn around, it's nowhere to be found
You're never gonna find it in your heart
But nothing's gonna make
the world stop turning
Nothing's gonna make the world stop
No lights in the city
It's too hot for sleeping
I'm walking my daydream back home
It's too hard to say it
It's too late to feel it
I'm walking my daydream back home
Nothing's gonna make
the world stop turning
Nothing's gonna make the world stop
Nothing's gonna make
the world stop turning
Nothing's gonna make the world stop
No lights in the city
It's too hot for sleeping
I'm walking my daydream back home
It's too hard to say it
It's too late to feel it
I'm walking my daydream back home

11 White Light Moment
3:42
Ågren/Kask/Styrke
Copyright Control/EMI Music Publishing/
Copyright Control
Produced by Peter Ågren and Jan Kask
Mixed by Anders Hvenare at
Electrophonic Analogue

I want a perfect moment
I want to go tonight
I want to see the stars shoot out of
a pitch black sky
I want to start a fire
I wanna burn tonight
I want a world in motion
I want to see the signs
Race through my mind
All I want now is a white light moment
Come with me tonight
Monochrome city the color's fading
Watching the world in your eyes
Take me around the planet,
take me through space and time
Paint me a perfect picture and
make sure you cross the line
Don't let the colors scare you,
it's just a state of mind
We'll stay out of sight
All I want now is a white light moment
Come with me tonight
Monochrome city the color's fading
Watching the world in your eyes
I want a perfect moment
I want to go tonight
I want to see the stars shoot out of
a pitch black sky
I want a world in motion
I want to see the signs
Race through my mind
All I want now is a white light moment
Come with me tonight
Monochrome city the color's fading
Watching the world in your eyes
